- 
- |   |   |
|---|---|
| <b>A.</b> Decorative matting feature formed by cutting facing parallel bevels into a matboard to expose the inner core of the board.                  | <b>E.</b> Type of mat to which a window mat is hinged along its long side and to which the art is attached.                     |
| <b>B.</b> Made by assembling pieces of matboard together to achieve the look of multiple colors/textures while keeping the thickness of a single mat. | <b>F.</b> Type of board made of cotton linter.  |
| <b>C.</b> Decorative matting feature where the inner core of the matboard is <i>not</i> visible from the front.                                       | <b>G.</b> Type of board with a chemical wood pulp center treated to meet preservation needs.                                    |
| <b>D.</b> Traditionally, a way to support a thicker object, such as a book, without using hinges or tapes.  | <b>H.</b> Window mat with an extra layer of board added to its back side to raise it from the surface of a fragile work of art. |
