## REFLECT YOUR PERSONALITY WITH CUSTOM MIRRORS

Custom-made mirrors are a must for any home decor. Our handmade frames are the highest quality and can be made in any size, color, and finish. Whether your taste is simple or ornate, we can create the perfect framed mirror just for you.

Mirrors are great additions to any home. Entryways, halls, bedrooms, living rooms, dining rooms, bathrooms—any room is perfect for a mirror display. We can make your mirror a work of art by creating a magnificent frame design. Coordinating your furniture and walls is our specialty. Style, size, and shape are all factored in to make a smooth decorative transition.

Beveled mirrors add an extra sparkle. We use the best quality glass and polished edges. We can make samples to show you the different size bevels. If an antiqued mirror is your style, we can create that, too.

As a special service, we can deliver and hang your mirror. It is our pleasure to serve you. So stop by the store and let us create a wonderful mirror and frame design that reflects your personality and home décor. ■

# Framing Personal Treasures

**D**o you have a beautiful keepsake that you can't seem to find a place for? We can create a beautiful frame design for you to display unique and odd-shaped personal treasures. A wonderful frame will enhance the colors in the object and in your home to create a balance in your décor.

ors. Creating a deep mat design offers a shadowbox effect. A hand-wrapped fabric mat with a matching fillet adds dimension and embellishes the overall appearance. The frame design becomes an extension of the fan itself. Fan-tastic designs like these are sure to provide focal points in your home and one-of-a-kind remembrances. We love a challenge. Bring in your unusual objects, and we will create a masterpiece. ■
